Mamito Kombi

Mamito Kombi

A perfect system.

Easy to use

- 1 Filter the cooled oil. Then pour or pump the oil back into the tank. Our **Mamito hand filter** is ideal to filter the oil.

Alternatively you can also use the VITO frying oil filter.

- 2 If necessary, top up the fryer tank with **Mamito Extra** up to the maximum mark

- 3 Check the oil quality using the **Mamito oil measuring instrument**. Instructions for using the instrument are available here:

- 4 Add **Mamito Kombi** to the oil.

RECOMMENDED DOSAGE

- Add 1 push stroke (25 ml) of **Mamito Kombi** to the fryer's tank every day

(Alternatively: automatic dosage system)
