POULTRY DELIGHT-PURE FLAVOUR

IT'S THE  
CONTENT  
THAT MATTERS

Top range for the  
professional kitchen!

# IT'S THE CONTENT THAT MATTERS

For almost two years, this simple truth has been our slogan for quality, flavour and trust. As a manufacturer of high-quality frozen chicken convenience products, we rely on the best raw materials and carefully selected ingredients. We are convinced that real delight can only be achieved if the basis is in tune. Our customers - and our customers' customers - should be sure that they are always making the right choice with HANNA. Quality, delight and service - the whole package has to be in tune. That's what matters.

## LESS IS MORE

At HANNA, we consistently take pleasure a step further. In addition to innovative specialities, we also take a close look at established products - always with the aim of making our products even better and cleaner. In the few last months, we have optimised numerous recipes and checked which ingredients can be removed without compromising on taste. A good product does not need any superfluous additives - **less is more!**

For example, we have decided to reduce or completely eliminate unnecessary sugars and seasoning extracts from our recipes. Because for us, 'less is more' means: **fewer additives, more flavour**. This philosophy will be our key theme for 2025 - and we are proud to communicate this to the world.

Whether on our folders, new sweaters, pens or bags: Together with the weighing scales as a symbol, we make it clear: **At HANNA, only what brings real delight goes into the product.** For us, quality means selecting the best ingredients – but also consciously avoiding anything that does not belong there. That is our aim. And that is what our customers can expect from us.

The **AIRFRYER** is not only conquering private kitchens, but is also establishing itself in the gastronomy sector as a smart preparation method. Faster and more energy-efficient than the oven, with less fat than the classic deep fryer. It does not only save time, but also the cost for expensive frying oil.

Perfectly suited for preparation in the hot air fryer: our cooked products. They are lightly sprayed with oil before we cook them using the hot air cooking process. This way, the Airfryer achieves the perfect crispiness with minimal effort – simple, reliable costing and a high degree of convenience.
