

Cederroth First Aid

Product Catalogue

Are your employees prepared for an accident?

We want First Aid to be accessible to everyone. By equipping your workplace with a complete range of First Aid equipment, we hope that more of your employees will be able to save lives if there is an accident. This is our ultimate goal and our motivation.

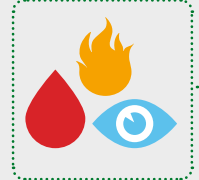

Visit the world's smallest emergency department

Cederroth has solutions that allow everyone to provide First Aid, even if they have not had any training. With our innovative range of First Aid Stations, every workplace can customise their own small emergency department, so that they are fully prepared for an accident.

- Easy to understand – our stations and First Aid Kits have been designed to make it quick and easy to find the right product.
- Many of our products can be used for many different needs, making First Aid clear and simple.
- Clear illustrations – anyone should be able to give First Aid. Everywhere.
- Well signposted – clear signposting is essential for First Aid equipment.

Cederroth First Aid products are of high quality that meet the necessary requirements for safety and performance.

Most of the products in our kits and stations are medical products which are CE-marked in accordance with applicable legislation. Orkla Wound Care AB's quality management system is certified in accordance with MDR (European Medical Device Regulation 12485/745, Ammex IX, Chapters I & III and ISO 13485:2016).

New! Improved packaging design

- Clear symbols to make it easy to quickly find the right product in a stressful situation
- Demo films showing how to use a product via a QR code
- Expiry date visible on the front for easier inspection

Recycled plastic gets new life in First Aid products

Since 2022, the green coloured plastic in Cederroth Stations and Dispensers has been made from more than 85% recycled plastic. We are now taking the next step and are beginning to replace the plastic in the transparent doors with 100% recycled plastic. From the summer of 2025, the plastic in Cederroth First Aid Stations and Dispensers will therefore be made of >92% recycled plastic. This will reduce CO₂ emissions by 90% compared to producing new plastic.

Summary

CEDERROTH

First Aid Station

A small emergency ward by your side.

Cederroth's groundbreaking First Aid Stations are small, tailor-made emergency wards for every workplace. They are designed to be placed anywhere with accessibility for everyone. We make your world safer, one small emergency ward at a time.

CEDERROTH

First Aid Station

Cederroth First Aid Station is the base in First Aid equipment.

It contains products for treating several types of injury and can also be easily adapted according to different healthcare needs.

Hygienically clean!

A transparent door protects the products against dust and dirt.

Clear display

Clear, easy-to-understand First Aid instructions are printed on the station and on product packs. The Protection Kit and Wound Cleansers can be found in the large compartment behind the instruction sign.

Plasters that you pull downwards

In our dispenser, you simply pull the plasters downwards, which avoids getting any dirt or blood on any other plasters.

Refill key

The plaster refills are locked away in the dispenser to make sure they do not disappear. The Soft Foam Dispenser is also locked. It is easy to remove the empty refills using the special key provided.

Watch the instruction film for First Aid Station, to see how the refill key is used. Please contact us if you need an extra key.

Time to refill?

Red refill stickers indicate when it is time to refill.

Scan the QR code to see an instruction film about Cederroth First Aid Station.

* From the summer of 2025, the plastic in Cederroth First Aid Stations and Dispensers will be made of >92% recycled plastic.

CEDERROTH

First Aid & Burn Station

The First Aid Station for workplaces with risk of burn injuries and/or food is processed, such as catering kitchens, the food industry and workshops.

Cederroth Burn Gel for burns

Cederroth Burn Gel 100 ml and Dressing provide rapid cooling and effective pain relief for burns. Cederroth Burn Gel cools as effectively as lukewarm water, speeding the healing process.

Soft Foam Dispenser

Cederroth Soft Foam Bandage Blue is an elastic self-adhesive bandage, giving maximum freedom of movement. The smart dispenser makes it easy for you to cut just the right length. The bandage can be used for all kinds of minor wounds and will stay in place in water.

Plaster for burns

Cederroth Burn Cover protects and soothes minor burn injuries and promotes faster healing. The cool hydrogel protects the nerve endings in the skin and does not adhere to the wound.

Blue plasters when handling food

Salvequick Blue Detectable Plasters are perfect if you are handling food. Blue plasters are easier to see and they can be detected by most metal detectors used in the food industry.

Double-sided and photoluminescent. 20 x 20 cm.

Sign Escape Route Arrow REF 1735

Double-sided and photoluminescent. 20 x 20 cm.

Sign holder REF 1750

Self-adhesive plastic sign holder.

CEDERROTH Eye Wash

Designed to last for years.

Our buffered eyewash is a fast and reliable solution that has a neutralising* effect on acid or alkali splashes that require quick action. With a user-friendly design and the market's longest shelf life of 4.5 years, the eyewash is a proud representative of our commitment to creating safer workplaces everywhere.

*The effect is generally stronger on alkalis than acids.

The integrated eye cup guides the liquid towards the eye without any unnecessary waste

The eye cup helps to keep the eye open while rinsing. A colleague can check that the eye is open by looking through the transparent cup.

Unique design!

Buffered liquid increases the chance of saving your vision!

Cederroth Eye Wash – when every second counts.

Cederroth Eye Wash works to neutralise the eye's pH value, i.e. it has a neutralising effect on alkali or acid splashes, giving a quicker result than a normal sodium chloride solution. # Shelf life of 4.5 years.

If you have an accident with a substance that contains calcium (for example, cement, concrete or lime), you can safely rinse with Cederroth Eye Wash as it is 100% phosphate-free. This ensures that the eye is rinsed as effectively as possible.

CEDERROTH Eye Wash Station

Cederroth Eye Wash opens when you twist it out of the bracket, allowing you to start rinsing the eye immediately!

The station contains 2 bottles of eye wash

The bottle is designed to rinse the eye with a good flow of liquid for around 1.5 minutes. Make sure you have more bottles to hand so that you can rinse the eye over a long period of time, at least 15 minutes. Our unique eye cup helps to keep the eye open.

Neutral-
izing
effect[#]

Plaster dispenser and extra compartment

The Eye Wash Station comes with a Salvequick Plaster Dispenser and has additional space for your own choice of products, for example, bloodstoppers, protective glasses or protective gloves.

1 Fluorescent instruction sign

* From the summer of 2025, the plastic in Cederroth Eye Wash Stations will be made of >87% recycled plastic and Eye Wash Cabinets of >78% recycled plastic.

CEDERROTH BUFFERED EYE WASH

For a neutralising effect*

**Cederroth Eye Wash
REF 725200**

2 (x 500 ml) sterile isotonic borate buffered sodium chloride solution without preservatives for single use. Bottle dimensions: 6.5 x 23.5 cm. Shelf life 4.5 years.

**Cederroth wall bracket
REF 7200**

For Cederroth Eye Wash 500 ml (REF 725200). Comes with a fluorescent instruction sign. Dimensions: W 9 x H 27 x D 7 cm.

**Strap for wall bracket
REF 7205**

Provides additional support in e.g. vehicles that can experience heavy vibrations at times.

**Cederroth Eye Wash pocket model
REF 7221**

235 ml sterile isotonic borate buffered sodium chloride solution without preservatives for single use. Shelf life 4.5 years.

**Cederroth holster
REF 720300**

Green nylon holster with a belt loop for Cederroth Eye Wash Pocket Model (REF 7221). Dimensions: W 8 x H 16 x D 4.5 cm.

**Sign eye wash
REF 1740**

Double-sided and photoluminescent. 20 x 20 cm.

**Cederroth Heating Cabinet
REF 790400**

This heating cabinet has been designed for storing two bottles of Cederroth Eye Wash in cold environments. The cabinet maintains the temperature of the eye wash solution at +20°C, even if the temperature outside is as low as -20°C. The cabinet is made of insulated, durable and chemically-resistant EPP and has a thermostat heating element made of aluminium. It works automatically with 12V and 24V without the need for any other equipment (230V with a transformer). Plug for cigarette lighter sockets in cars and lorries. Voltage guard. Tested for electrical safety and CE-labelled. Eye wash must be ordered separately (REF 725200). Dimensions: W 28 x H 32 x D 13 cm.

**Cederroth transformer
REF 790500**

Double-insulation to withstand the cold. IP rating of IP44. 230V/14VDC, 30W. Adapter socket for 12/24V plug.

* The effect is generally stronger on alkalis than acids.

CEDERROTH

First Aid Kits

A helping hand on the move.

Our First Aid kits come in many different shapes and sizes for a reason. They should be easy to carry and even easier to use. Whether an accident occurs at work or out on the move, Cederroth is always by your side.

CEDERROTH

First Aid Kit X-Large

Robust and durable First Aid Kit made of hard plastic with a plaster dispenser on the outside. The case protects against knocks, dust and moisture. Wellorganised, including gloves, scissors and a breathing mask in the lid. Red refill labels show you when you need to restock. The kit is bright green and yellow, making it easy to see from a distance. Space for eye wash or other supplies of your choice.

Salvequick plaster dispenser on the outside

You can remove a plaster simply and quickly, without touching any of the other products in the kit, ensuring they stay hygienically clean.

CEDERROTH

Soft Foam bandage & plaster

Smart plasters – always within reach.

Cederroth and Salvequick plasters and plaster dispenser are a complete and easy-to-use system. The plaster is easy to apply, flexible and easy to use. They are available in a number of different variants and also as self-adhesive Soft Foam Bandage.

CEDERROTH

New!

Soft Foam Bandage 2-in-1 Dispenser

Cederroth Soft Foam Bandage 2-in-1 Dispenser
REF 510004108

Dimensions: W 14,5 x H 12,5 x D 14 cm

I Cederroth Soft Foam Bandage Blue 6cm x 4,5m (REF 51011010)

I Cederroth Soft Foam Bandage Blue 3cm x 4,5m (REF 51011022)

Launch on 1 May 2025.

Now with two rolls in two sizes

An excellent complement to your First Aid equipment for quick and easy care of minor wounds. Compact size that makes it easy to mount on a wall, even on small areas.

The Dispenser has an integrated knife for easy use with clear instructions. The Dispenser can be locked to prevent waste and can be easily opened with a refill key. Transparent cover protects products against dust and dirt.

CEDERROTH

Soft Foam Bandage

Available in three colours and different sizes

Cederroth Soft Foam Bandage functions as both a plaster and a bandage. The dressing is suitable for all types of small wounds regardless of heat, cold, wet or dry and will even stay on in water. Cederroth Soft Foam Bandage is a self-adherent, adhesive-free plaster and therefore does not stick to the skin or hair. Available in three colors.

Cederroth Soft Foam Bandage Blue
6 cm x 4,5 m, REF 51011010

High visibility & fresh look

Blue colour is recommended for food handling to detect it visually. Recommended for Horeca businesses like kitchens and restaurants. **Refill to Wound Care Dispenser and Soft Foam Bandage 2-in-1 Dispenser.**

Cederroth Soft Foam Bandage Beige
6 cm x 4,5 m, REF 51011020

Original & discrete

The original colour. Easy to check if the bandage gets dirty or bleeds through. Recommended for clean environments or when you prefer a discreet colour Suitable for offices, schools and any workplace. **Refill to Wound Care Dispenser and Soft Foam Bandage 2-in-1 Dispenser.**

Cederroth Soft Foam Bandage Black
6 cm x 4,5 m, REF 51011021

Heavy work & dirty environment

The black colour camouflages dirt or oil stains on the outer bandage. For heavy and dirty work environments e.g. manufacturing industry, building & construction, vehicle repair. **Refill to Wound Care Dispenser and Soft Foam Bandage 2-in-1 Dispenser.**

Cederroth Soft Foam Bandage Beige, 6 cm x 2 m REF 51011019

Glue-free, self-adhesive plasters that you can easily tear to the size you want. Suitable for any kind of wound in all hot, cold, wet and dry conditions. Remains in place in water. **Refill to First Aid Station.**

Cederroth Soft Foam Bandage Blue, 6 cm x 2 m REF 51011011

Glue-free, self-adhesive plasters that you can easily tear to the size you want. Suitable for any kind of wound in all hot, cold, wet and dry conditions. Remains in place in water. **Refill to First Aid & Burn Station.**

Cederroth Soft Foam Bandage Beige, 3 cm x 4,5 m REF 51011018

A self-adhering adhesive-free plaster that does not stick to skin or hair. Suitable for fingers and toes. Easy to wrap around small hands or for minor wounds. **Refill for Soft Foam Bandage 2-in-1 Dispenser.**

Cederroth Soft Foam Bandage Blue, 3 cm x 4,5 m REF 51011022

A self-adhering adhesive-free plaster that does not stick to skin or hair. Suitable for fingers and toes. Easy to wrap around small hands or for minor wounds. **Refill for Soft Foam Bandage 2-in-1 Dispenser.**

Cederroth Soft Foam Bandage Blue, Pocket size REF 51011023

Glue-free, self-adherent plaster that can be easily torn to the length required. Suitable for all minor wounds and remains in place in all hot, cold, wet and dry conditions. Stays in place in water.

SALVEQUICK

Plaster Dispenser

In our Salvequick Dispenser you pull plasters downwards, which avoids you getting any dirt or blood on other plasters. The Salvequick Dispenser and Salvequick

Plasters is a complete, easy-to-use system. The plasters are always available, ready to use. The refills are locked, which prevents waste.

Put plasters on with one hand

When you pull a plaster out of the dispenser, one side is uncovered, making the plaster ready to use. So ingenious that it allows you to put a plaster on with just one hand.

Clean, dry and hygienic

Our dispenser allows you to pull plasters downwards, which avoids you getting any dirt or blood on any other plasters. The hygienic door keeps the plasters clean and fresh and makes it easy to see when you need to fill up with new plasters.

No unnecessary waste

The plaster refills are locked in the dispenser to make sure they do not disappear. It is easy to remove using a special key. Contact us if you need an extra key.

CEDERROTH

Refills

Easy to order replacement products.

Our refills make it easier for you to replace what is missing in your First Aid stations, panels, cabinets and First Aid Kits.

Refills

4-in-1 Bloodstopper

Sterile universal dressing with clear instructions for each application.

Cederroth 4-in-1 Bloodstopper REF 1910

Sterile universal dressing with four functions: Pressure pad for heavy bleeding. Protective dressing for superficial wounds. Burn dressing with special wound-protecting surface. Temporary support dressing. Clear instructions are printed directly on packaging.

Cederroth 4-in-1 Mini Bloodstopper REF 1911

Sterile universal dressing specially suitable for fingers and toes. Clear instructions are printed directly onto packaging.

Cederroth Protection Kit REF 2596

This product reduces the risk of contact between the person who is helping out and the person who is injured. It includes a breathing mask, 2 pairs of gloves and 2 Cederroth Safety Hand Cleansers.

Cederroth Eye & Wound Cleansing Spray, REF 726000

Spray for rinsing and cleansing out dust and dirt from eyes and wounds. The spray provides a gentle flow of water, with a total rinsing time of 5 minutes. The spray works at every angle and in every direction. The spray can be used several times and remains sterile to the very last drop. Contains 150 ml sterile sodium chloride solution, 0.9% NaCl. Ecofriendly propellant. Fits in the First Aid Station. Shelf life 5 years.

Salvequick Wound Cleanser 40 pcs REF 3227

Salvequick Wound cleanser replaces cotton and bottles with wound cleansing liquid. Contents: 40 Salvequick Wound Cleansers with 0.9% sodium chloride solution. Sterile, individually packaged. Can be used in the Double Door Cabinet and Cederroth Wound Care Dispenser.

Salvequick Wound Cleanser 20 pcs REF 323700

Salvequick Wound cleanser replaces cotton and bottles with wound cleansing liquid. Contents: 20 Salvequick Wound Cleansers with 0.9% sodium chloride solution. Sterile, individually packaged. Can be used in the Cederroth First Aid Station.

Cederroth refill pack for the First Aid Station REF 51011039

Hydrogelplaster

Cederroth Burn Cover REF 901903

Hydrogel plaster that protects and relieves minor burn injuries. Burn Cover can also be used for minor cuts and abrasions. Burn Cover is blue, so can be used when handling food. The hydrogel does not adhere to the wound. Watertight and sterile. Cool the burn for at least 20 minutes using Cederroth Burn Gel, for example, or with lukewarm water prior to applying the Burn Cover.
10 plasters/box (74 x 45 mm)

Cederroth Burn Gel REF 51011005

Water-based gel for minor burns, scalds, sunburn and radiation damage. Acts as a temporary protective barrier that cools and calms the skin and provides pain relief. Simple to apply (gel in an aerosol dispenser) and can be used several times.

Cederroth Burn Gel dressing 10 x 10cm, REF 901900

The dressing offers rapid cooling and effective pain relief for burns and sunburn. Cederroth Burn Gel cools as effectively as lukewarm water, speeding up the healing process. Water-soluble. Sterile dressing 10 x 10 cm, 2 pcs box.

Cederroth Burn Gel dressing, 20 x 20cm, REF 51011015

Burn Gel Dressing provides rapid cooling and effective pain relief for first- and second-degree burns. Suitable for burns up to 20 x 20 cm.

Cederroth Burn Gel dressing/face mask, 30 x 40cm, REF 51011014

Large Burn Gel Dressing provides rapid cooling and effective pain relief for first- and second-degree burns. Suitable for burns with larger areas as legs, arms or chest. Can also be used as a Face Mask.

Cederroth Burn Gel:

- rapid cooling
- effective pain relief
- easy to use
- clear instructions

Refills

**Cederroth Mitella
REF I889**

This product can be used to support an injured arm or to keep a dressing in place on a head injury. Contains 2 triangular bandages and 6 safety pins.

**Cederroth Elastic Bandage
REF I882**

4 metres long when extended and 8 cm wide. Clips are included.

**Cederroth Breathing Mask
REF I921**

An aid in mouth-to-mouth resuscitation. It reduces the risk of contact between the person who is helping out and the person who is injured. There are clear instructions printed on the plastic cloth.

**Cederroth breathing mask in key fob
REF I925**

An aid in mouth-to-mouth resuscitation. It reduces the risk of contact between the person who is helping and the person who is injured. There are clear instructions printed on the plastic cloth.

**Cederroth Emergency Blanket
REF I892**

Blanket with a heat-reflecting aluminium side that provides effective insulation.

**Cederroth Safety Hand Cleanser
REF 3387**

Moist cleansing wipes for effective hand cleansing. Contains 70% alcohol. (600 wipes).

**Salvequick Plaster & Wound Cleanser
REF I880**

Bag with 20 Salvequick Plasters and 10 Salvequick Wound Cleansers. **New!** REF 510005534 as from June 2025, with 4 Big Plasters added.

**Cederroth Net Dressing
REF I893**

Large dressing with a fixing net to keep the bandage in place.

**Salvequick Instant Cold Pack
REF 219600**

A cooling bag to relieve pain and minimise swelling, for example, from a sprain.

**Scissors 190 mm
REF 270002**

Stainless steel Lister bandage scissors with a plastic handle, designed for use in emergencies. The rounded edge of the scissors prevents any sharp injuries. The large openings in the handle make the scissors easy to use, including by people with large hands.

**Tweezers 100 mm
REF I875**

Stainless steel tweezers, individually packaged in plastic bags. The tweezers are designed for First Aid, for example, when handling bandages or removing foreign objects from wounds.

Are you properly equipped to save lives? Use the checklist

When someone near you is seriously injured, it is important to be able to act quickly. Use the checklist to make sure you are properly equipped to deal with the risks at your workplace. Adapt the First Aid equipment to your specific needs. It could save a life.

- ✓ The choice of First Aid equipment is based on a documented risk assessment.
 - ✓ There is First Aid equipment available for providing effective First Aid to both employees and visitors.
 - ✓ The First Aid equipment is positioned so that it is close to everyone and is easy to find.
 - ✓ The equipment is marked with signs to guide you.
 - ✓ There are always enough people who can give First Aid.
 - ✓ Everyone knows what to do in the event of an accident.
 - ✓ There are signs indicating where First Aid equipment is located, who can provide First Aid, phone numbers for ambulances and taxis, and the address of the workplace.
 - ✓ Everyone who works outside the stationary workplace has suitably adapted First Aid equipment available to take with them.
 - ✓ There are procedures in place for regularly checking the equipment.
 - ✓ The checks are documented.
 - ✓ There are procedures for crisis support.
 - ✓ There is a permanently installed eye shower as well as eyewash bottles available where corrosive chemicals are handled.
 - ✓ Burn injury products are available in case of risk of burns.
 - ✓ There is a responsible person appointed for each First Aid unit.
 - ✓ No product has passed its expiration date.
-

First Aid for everyone. Everywhere.
