

ACTIVE FAMILY EXPERIENCES WITHOUT ADDITIONAL STAFFING

Modern family hotels need engaging experiences that are easy to operate without adding to the workload. CSE's active play solutions fit naturally into existing spaces, engage guests from the first interaction and are designed for independent use with minimal staff involvement.

Results & benefits

- No additional staffing required
- Easy and convenient to use
- More movement with an element of fun
- Shared experiences for the whole family
- Very positive guest feedback

"We have had very positive experiences with both iWall and cycloBEAT. Children can use them independently. For family-friendly hotels, they are a great addition to the guest offering."

-Dimitrios Panagiotopoulos, Head of Marketing & Design at Sonnen Resort in South Tyrol

ACTIVE PLAY FOR MODERN AIRPORTS

Across Aena airports, iWalls turn waiting time into active, engaging experiences for passengers of all ages. By bringing movement and play into the terminal environment, they create positive moments during the passenger journey while supporting a modern, welcoming and family-friendly airport experience.

Fits into just 3 m²
of floor space

PREMIUM PLAY, MADE EASY

cyclo Kids turns cycling into an active adventure for kids aged 3 to 9. Up to four young riders can pedal, play and explore together through a variety of fun, kid-friendly games.

Fully automatic and easy to operate, cyclo Kids keeps staff effort low. Automatic content and software updates keep the experience fresh and give young riders new reasons to play again.

A NEW ERA OF FAMILY ENTERTAINMENT AND ACTIVE PLAY

iWall brings movement, play and excitement to your hotel through an interactive gaming experience for all generations. Designed for 1-2 players aged 4 and up, it is intuitive, accessible and ready to play, with no controllers or supervision required.

With a wide variety of games, iWall brings different ages and abilities together through active play. Many games can even be played from a wheelchair, making it an engaging experience for families and guests of all ages.

iWall 4.0

LEADING ACTIVE GAMING COMPANY

Since 2012, CSE has designed active gaming experiences that combine movement, gaming and social play. Built for high-volume commercial use, our solutions focus on durability, easy operation and long-term reliability, with their impact supported by 25 academic studies.
