wynote CT58

## PDA device with touch screen for hospitality, compact and powerful

Wynote is the touch screen handheld device for flexible and efficient order taking. Its robust and ergonomic design is intended to offer maximum handling and durability over time.

- Large 5.5" 720 x 1280 high brightness display
- Ultrasensitive capacitive multi-touch
- Can be operated with gloves and wet fingers
- Compact and lightweight, only 265 g
- Resistant to water and dust (IP65)
- Withstands multiple drops from a height up to 1.5 m
- Dual Band WiFi (2.4 - 5 GHz), Bluetooth 5.0, NFC
- High-speed Octa-Core processor
- 13 MP camera (rear)
- Removable 5000 mAh battery
- Up to 12 hours of battery life

## Why does Wynote make a difference?

Wynote is a professional terminal, with accessories and features designed to speed up order taking and make the overall service more efficient.

Water and dust resistant (IP65 certification). Withstands multiple drops from up to 1.5 m height.

Supports updates for the Android operating system.

The long-lasting battery is removable and can be easily replaced to ensure uninterrupted use.

The handstrap favors continued use of the Wynote, guaranteeing a stable and ergonomic grip.
